ORANGE1
HOLDING

A dynamic, strong and ambitious Group

Orange1 Holding is an international renown Group, one of the most important European manufacturers of single-phase and three-phase asynchronous electric motors. It has an annual capacity of more than 1 million motors and 5 million electric stators with an annual turnover of approx 235 million euro and more than 1600 workers in 15 production facilities. The group, established in 1971 by Leone Donazzan, chaired today by his son Armando Donazzan, is strongly focused on technological innovation, performance and customization to meet individual clients requirements

Orange1 Foundry is a leader in co-design and production of aluminum die-cast components. Using cutting-edge technologies it provides the highest levels of quality and, thanks to collaboration with the best suppliers in the market, it designs the optimal technological solutions for every production process. Orange1 Foundry follows the entire production process, from co-design, die-casting and mechanical work.
